Shortly after our app will be updated with this image. Date TBD

In addition to upgrading our application, our new **text banking number** will be **415-943-4792**.

What will you need to do as a mobile banking user?

iPhone Users:

If enabled, Auto-update should update the application without any interaction; however, there may be conditions with your device that may prevent the update from happening. These conditions include device Wi-Fi, data network settings or other circumstances that may require a manual update of the existing application. If you are having issues with the current application, you can update your app by following the instructions below:

- To update apps individually or in bulk using the Apple App Store app on your mobile device:
 1. Open the Apple App Store.
 2. Select the Profile Picture (Person Icon).
 3. Scroll down to the Upcoming Automatic Updates.
 4. From here, you can opt in to update all available apps or scroll to the First National Bank of Milaca app and update it.
- If you are seeing the "Our Mobile Banking Solution has changed. Please check our website for more information" message, then this is a good indicator that the app didn't automatically update, and you should follow the steps above to update.

Android Users (Next Page)

Android Users:

You will be required to remove the old application and download the new version from the Google Play Store once the new version is available on 4/20/21. You will be required to set up biometrics if you previously had that feature enabled in the old app. You will also be presented with new Terms and Conditions in order to use the newest Android application.

- Here is the First National Bank of Milaca new Android app store URL:

<https://play.google.com/store/apps/details?id=com.apiture.xpressmobile.fnbmmn.sub>

- If you are attempting to access the old application, you will receive the following message:

Call 320.983.3101 if you have questions.
